1. The description of items must be sufficiently detailed and all items broken down into their main components. The number of units and the unit value must be specified for each item depending on the indications provided. The budget has to include costs related to the Action as a whole, regardless the part financed by the Contracting Authority.

2. This section must be completed if the Action is to be implemented over more than one reporting period (usually 12 months).

3. The budget is established in the currency of the country of the Contracting Authority. Costs and unit values are rounded to the nearest tala.

4. If staff are not working full time on the Action, the percentage should be indicated alongside the description of the item and reflected in the number of units (not the unit value).

5. Indicate the country where the per diems are incurred-

Per diems are not considered a simplified cost option for the purposes of Union financing when the Grant Beneficiary reimburses a fixed amount to its staff according to its staff rules and asks for the reimbursement of that same amount in the action budget. That is an actual cost.

Otherwise, if the Beneficiary proposes a reimbursement on the basis of simplified costs option (for instance a "unit cost"), it must specify "UNIT COST per diem" in the "unit value" column and the applicable rates (in any case the final eligible cost may not exceed the rates published by the E.C. at the time of contract signature).

Costs for C02 offsetting of air travel may be included. C02 offsetting shall in that case be achieved by supporting CDM/Gold Standard projects (evidence must be included as part of the supporting documents) or through airplane company programmes when available. Indicate the place of departure and the destination. If information is not available, enter a global amount.
 Please separate cost for purchase or rental.

8. Specify the typology of costs or services. Global amounts will not be accepted.

9. Only indicate here when fully subcontracted.

10. Communication and visibility activities should be properly planned and budgeted at each stage of the project implementation.

11. Only to be filled in when provided for in the Call for Proposal (i.e. taxes are not eligible and the beneficiary(ies) can show they cannot reclaim them). Please see glossary of terms (Annex A 1) of the Practical Guide to contract procedures for EU external actions for the definition of taxes. Please note that direct taxes are not included (such as taxes on salary of staff working for the action which are part of the gross salary). Note: Where the Call for Proposal does not exclude the coverage of taxes and the beneficiary can show it cannot reclaim, taxes may be eligible and should be included in each relevant heading. Taxes that can be reclaimed are not considered as eligible nor accepted costs.

12. Only to be filled in when contributions in kind as may be accepted as co-financing. The amount indicated must be identical to the one indicated in worksheet 3 "expected sources of funding". This line doesn't include contributions in kind in the form of volunteers' work.

13. Use "UNIT COST per flight/month/kit etc..." or "LUMPSUM" or "FLAT RATE" or "APPORTIONMENT" in case of simplified cost options. Use different lines for each type of simplified cost options and per beneficiary. In worksheet 2, the methods used to determine and calculate them must be clearly described and substantiated and the Beneficiary proposing and using them must be univocally identified. (for more guidance see Annex K - Guidelines-Checklist for simplified cost options).

14.Costs related to category 1 and 4 of the budget, when they relate to a Field office that is shared by several projects, can be declared as costs actually incurred without invoking a simplified cost option, by applying an apportionment of office costs.

A pro-rata system based on estimations can be accepted in the budget of a call for proposals if it is justified.

It could be based on:

- pro rata the number of staff assigned to the action (as compared with the total number of staff in the office);

- pro rata the time spent on the action (as compared with the total availability time of the office); and

- pro rata the space occupied for the purpose of the action (as compared with the total space available in the office).

A description of the allocation cost system used to determine field office cost has to be presented by the entity and annexed to the Budget on a separate sheet. This allocation cost system will be assessed and approved by the evaluation committee and the contracting authority. When declaring cost based on such allocation method, the amount charged to the project is to be indicated in the column "TOTAL COSTS" and the mention "APPORTIONMENT" is to be indicated in the column "units".

Nevertheless, the amount included as incurred cost in the financial report should be real and documented based on daily or weekly timesheets, real calculation of the space occupied by the staff assigned to the action, etc.

15.Include here the costs of the volunteers' work if this type of contribution in kind is allowed. Volunteers' work shall be declared as eligible cost, but set aside of the direct costs as the calculation of indirect costs does not apply. Volunteers' work may comprise up to 50 % of the co-financing and shall be declared as unit cost (fixed by the contracting authority).

NB: The Beneficiary(ies) alone are responsible for the correctness of the financial information provided in these tables.
